## 1. Press release sent to local medias

Université de Poitiers  
**COMMUNIQUE DE PRESSE**  
Poitiers, le 02 février 2021

### L'Alliance EC2U, coordonnée par l'université de Poitiers, organise son premier forum

**Le premier Forum EC2U (European Campus of City-Universities) organisé par l'Alliance EC2U et coordonné par l'université de Poitiers se tiendra en ligne les 4 et 5 février prochain.**

Tous les six mois, l'Alliance EC2U ([ec2u.eu](https://ec2u.eu)) organise un Forum européen pour initier des débats sur des sujets de société enrichis par des interventions d'étudiants, d'enseignants-chercheurs, de citoyens, de collectivités locales et régionales, etc. Compte-tenu de la situation sanitaire actuelle, cette première édition se déroulera en ligne.

À l'occasion de ce premier Forum, deux webinaires sont organisés : « **Sustainable Development Goals for a fair European society** » et « **The future European Degree** ». Des acteurs du développement durable et des experts variés (Commission Européenne, ministères, organismes gouvernementaux, autres Alliances universitaires, étudiants, associations locales) partageront leur point de vue lors de conférences, tables-rondes et séances de questions-réponses.

Cet événement est gratuit et ouvert à tous.

#### L'Alliance EC2U

L'Alliance « European Campus of City-Universities, EC2U » (Campus Européen des Universités dans la Cité) est une alliance multiculturelle et multilingue constituée de 7 universités historiques, reconnues pour la qualité de leurs formations et de leurs activités de recherche et situées dans plusieurs régions de l'Union européenne : universités de Coimbra (Portugal), Alexandru Ioan Cuza de Iasi (Roumanie), Friedrich Schiller de Jena (Allemagne), Pavie (Italie), Poitiers (France), Salamanque (Espagne) et Turku (Finlande).

L'Alliance EC2U forme une communauté de 160 000 étudiants et 20 000 personnels, en lien direct avec plus de 1 600 000 citoyens.

L'ambition de l'Alliance est de développer un espace innovant permettant la libre circulation des personnes et des idées entre les six universités et les villes associées. Ce modèle d'ouverture contribuera à surmonter les idées préconçues des identités régionales et nationales et à créer une Europe unie et plus forte.
