Equipment & technical support

In the Unipv Multifunctional Space it is possible to work with your own devices and connect to the wifi of the room, but if necessary you can ask to borrow a Mac laptop, a camera, a semi-professional microphone, and a console to connect these tools in a podcast-suitable set. Any specific request can be made in the reservation form.

If necessary you can ask for technical support (only if the staff is available on the date and time booked). Any specific request can be made in the reservation form.

The EC2U Multifunctional Space in Pavia can be used for example to record podcasts and videos, organize meetings, workshops, and webinars.
